INDIANA COUNTY PROFILES

SEAL OF THE STATE OF INDIANA
1816

INDIANA DEPARTMENT OF COMMERCE
LIEUTENANT GOVERNOR ROBERT D. ORR, DIRECTOR
DONALD W. MOREAU, EXECUTIVE DIRECTOR
RESEARCH AND ECONOMIC DEVELOPMENT PLANNING GROUP
TAD PERRY, GROUP DIRECTOR

FEBRUARY 1980

Recognizing a need for general socioeconomic data on a county basis, the Research and Economic Development Planning Group prepared these profiles to serve as a reference for both public and private users. Although somewhat fundamental in nature, the profiles were designed to provide the reader with a general overview of the characteristics of each county. Further detail and additional information is generally available directly from the source document. A listing of sources and an explanation of the major data items used in the profiles is included at the back of the publication.

The information contained herein was collected from a variety of governmental and private sources. Because of the variation in frequency of publication and time lags involved, the years for which data are presented vary accordingly. Every effort has been made to insure that the most recent data available has been used. Updates of the profiles will be done periodically for those items which have been revised.

Any comments or suggestions to improve the usefulness of the profiles would be appreciated and may be addressed to the office below.

Economic Research Division
Research & Economic Development Planning Group
440 North Meridian Street
Indianapolis, Indiana 46204
Tel: (317) 232-8917

The preparation of this report was financed in part under a section 302-A Economic Development Planning Assistance Grant from the Economic Development Administration, U.S. Department of Commerce.

EXPLANATION OF TERMS

POPULATION

The 1970 population figures are exact counts of the residents in each county from the 1970 Census of Population. The 1976 city figures and 1978 county figures are estimates based on data collected from various administrative records.

LABOR FORCE ESTIMATES

The annual average labor force estimates are official Indiana Employment Security Division (IESD) figures which are based on place of residence. The labor force includes both employed and unemployed workers in all types of employment: wage and salaried, self employed, unpaid family, domestic and agricultural workers. The unemployment rates, however, have been computed from rounded data and may not be comparable to the IESD official figures. In addition, it should be noted that IESD prepares data primarily for the allocation of funds and, hence, may not reflect true economic trends.

INCOME

The Bureau of Economic Analysis defines total personal income as the current income received by residents of an area from all sources. It is measured before deduction of income and other personal taxes, but after deduction of personal contributions to social security, government retirement, and other social insurance programs. It consists of wages and salaries, various types of supplementary earnings termed "other labor income," the net income of owners of unincorporated businesses, net rental income, dividends, interest, and government and business transfer payments.

Per capita personal income is an indicator of consumer markets and the economic well-being of the residents of an area. Per capita income was computed by dividing the residence adjusted total personal income by mid-year population estimates.

AVERAGE WEEKLY EARNINGS

According to the Indiana Employment Security Division, all covered employment includes employees working for firms subject to the Indiana Employment Security Act. The Act, in general, includes employers with one or more employees. Excluded are railroads, households, most farms, small non-profit institutions, churches, and government establishments with certain exceptions. State hospitals, schools of higher education, and local government utilities are covered.

Average weekly earnings in all covered employment are computed from the quarterly earnings and average employment of all employees in establishments covered by the Act. Average weekly earnings in manufacturing establishments are computed from the quarterly earnings and average employment of all manufacturing establishments covered by the Act. In both cases, the figures were computed from total payroll so they include all employees - janitors, company officers, factory workers and office employees - instead of only production workers.

AGRICULTURE

Farms

The 1974 Census of Agriculture defines a farm to include all land on which agricultural operations were conducted at any time in the census year under the day-to-day control of an individual management, and from which $1,000 or more of agricultural products were sold during the census year. Control may have been exercised through ownership or management, or through a lease, rental, or cropping arrangement. Places having less than the minimum $1,000 sales in the census year were also counted as farms if they could normally be expected to produce agricultural products in sufficient quantity to meet the requirements of the definition.

Market Value of Agricultural Products Sold

This item represents the gross market value before taxes and production expenditures of all agricultural products sold or removed from the place in 1974 regardless of who received the payment. It includes receipts by the operator as well as the value of any shares received by partners, landlords, contractors and others associated with the place. The total value of agricultural products represents the sum of all crops including nursery products sold, forest products sold, and poultry and livestock and their products sold.

Major Crop Harvested

The major crop harvested was calculated from the "Annual Crop and Livestock Summary, 1978," according to total number of bushels produced.

ESTABLISHMENTS

According to the Bureau of the Census, an establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the company or enterprise which may consist of one or more establishments. Separate information was obtained for each location where business was conducted. Each report was tabulated in accordance with the physical location at which the business was conducted. The count of establishments represents the number in business at the end of the year.

MAJOR MANUFACTURING GROUPS

The manufacturing groups in this table are defined according to the 1972 Standard Industrial Classification (SIC) Manual. The manufacturing division includes establishments engaged in the mechanical or chemical transformation of materials or substances into new products. A listing of the major groups follows while complete descriptions of each major group can be found in the SIC Manual.

SIC 20 - Food and Kindred Products
SIC 21 - Tobacco Manufactures
SIC 22 - Textile Mill Products
SIC 23 - Apparel and other Finished Products made from Fabrics and Similar Materials
SIC 24 - Lumber and Wood Products, except Furniture
SIC 25 - Furniture and Fixtures
SIC 26 - Paper and Allied Products
SIC 27 - Printing, Publishing, and Allied Industries
SIC 28 - Chemicals and Allied Products
SIC 29 - Petroleum Refining and Related Industries
SIC 30 - Rubber and Miscellaneous Plastics Products
SIC 31 - Leather and Leather Products
SIC 32 - Stone, Clay, Glass, and Concrete Products
SIC 33 - Primary Metal Industries
SIC 34 - Fabricated Metal Products, except Machinery and Transportation Equipment
SIC 35 - Machinery, except Electrical
SIC 36 - Electrical and Electronic Machinery, Equipment, and Supplies
SIC 37 - Transportation Equipment
SIC 38 - Measuring, Analyzing, and Controlling Instruments; Photographic, Medical, and Optical Goods, Watches and Clocks
SIC 39 - Miscellaneous Manufacturing Industries

MAJOR OCCUPATION GROUPS

Occupation Classification System

According to the 1970 Census of Population, the system consists of 441 specific occupation categories arranged into 12 major occupation groups. In this report, selected groupings of the 441 categories are presented. The most detailed comprise 32 occupation groups for the total employed. Shown below are the component categories of the 32 occupation groups presented in the report.

– Professional, technical, and kindred workers - includes engineers; physicians, dentists and related practitioners; health workers, except practitioners; teachers, elementary and secondary schools; technicians, except health; and other professional workers.

– Managers and administrators, except farm.

– Sales Workers.

– Clerical and kindred workers - includes bookkeepers, secretaries, stenographers, typists and other clerical workers.

– Craftsmen, foremen and kindred workers - includes automobile mechanics and repairmen; mechanics and repairmen, except auto; machinists, metal craftsmen, carpenters, construction craftsmen and other craftsmen.

– Operatives, except transport.

– Transport equipment operatives - includes truck drivers and other transport equipment operatives.

– Laborers except farm - includes construction laborers; freight, stock and material handlers; and other laborers.

– Farmers and farm managers.

– Farm laborers and farm foremen.

– Service workers, except private household - includes cleaning service workers, food service workers, health service workers, personal service workers, protective service workers and other service workers.

– Private household workers.

Employed persons comprise all civilians 16 years old and over who were either (a) "at work" - those who did any work at all as paid employees or in their own business or profession, or on their own farm, or who worked 15 hours or more as unpaid workers on a family farm or in a family business; or (b) were "with a job but not at work" - those who did not work during the reference week but had jobs or businesses from which they were temporarily absent. Excluded from the employed are persons whose only activity consisted of work around the house or volunteer work for religious, charitable, and similar organizations.

RETAIL TRADE

The 1972 Census of Retail Trade includes establishments primarily engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods.

Sales include merchandise sold, receipts from repairs and other services to customers, delivery, and carrying charges whether or not payment was received in 1972. Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from total sales. Sales also include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed along to the retailer are also included. Total sales do not include non-operating income from such sources as investment, rental of real estate, etc.

Although the count of establishments in this report represents the number in business at the end of the year, the sales figures include sales of all establishments in business at any time during the year.

The retail trade classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual, major groups 52 through 59. They are as follows:

SIC 52 - Building Materials, Hardware, Garden Supply, and Mobile Home Dealers
SIC 53 - General Merchandise Group Stores
SIC 54 - Food Stores
SIC 55 - Automotive Dealers and Gasoline Service Stations
SIC 56 - Apparel and Accessory Stores
SIC 57 - Furniture, Home Furnishings, and Equipment Stores
SIC 58 - Eating and Drinking Places
SIC 59 - Miscellaneous Retail Stores

WHOLESALE TRADE

Wholesale trade, as defined in major groups 50 and 51 of the 1972 Standard Industrial Classification (SIC) Manual includes establishments or places of business primarily engaged in selling merchandise to retailers; to industrial, commercial, institutional, farm, or professional users; or to other wholesalers; or acting as agents or brokers in buying merchandise for or selling merchandise to such persons or companies.

The prinicipal types of establishments included are: (1) Merchant Wholesalers who take title to the goods they sell. (2) Sales branches and sales offices (but not retail stores) maintained by manufacturing or mining enterprises apart from their plants or mines for the purpose of marketing their products; (3) Agents, merchandise or commodity brokers, and commission merchants; (4) Petroleum bulk stations; and (5) Assemblers, buyers, and associations engaged in the cooperative marketing of farm products.

Establishments primarily engaged in selling merchandise to contractors are included in wholesale trade, with the exception of lumber yards and paint, glass and wallpaper stores. These exceptions are classified in retail trade if they sell to the general public, even if a higher proportion of their sales is made to contractors.

Most businesses sell several kinds of commodities. The kind of business code assigned generally reflects either the individual commodity or commodity group which is the primary source of the establishment's receipts or some mixture of commodities which characterizes the establishment's business.

Descriptions of the kinds of business for which data are available are provided below.

SIC 50 Durable Goods
SIC 501 - Motor Vehicles and Automotive Parts and Supplies
SIC 502 - Furniture and Home Furnishings
SIC 503 - Lumber and Construction Materials

SIC 504 - Sporting, Recreational, Photographic and Hobby Goods, Toys and Supplies
SIC 505 - Metals and Minerals, Except Petroleum
SIC 506 - Electrical Goods
SIC 507 - Hardware, and Plumbing and Heating Equipment and Supplies
SIC 508 - Machinery, Equipment, and Supplies
SIC 509 - Miscellaneous Durable Goods
SIC 51 Nondurable Goods
SIC 511 - Paper and Paper Products
SIC 512 - Drugs, Drug Proprietaries, and Druggists Sundries
SIC 513 - Apparel, Piece Goods, and Notions
SIC 514 - Groceries and Related Products
SIC 515 - Farm-Product Raw Materials
SIC 516 - Chemicals and Allied Products
SIC 517 - Petroleum and Petroleum Products
SIC 518 - Beer, Wine and Distilled Alcoholic Beverages
SIC 519 - Miscellaneous Nondurable Goods

SELECTED SERVICES

Services, as defined in the 1972 edition of the Standard Industrial Classification (SIC) Manual, include establishments primarily engaged in rendering a wide variety of services to individuals and business establishments.

Establishments covered by the Census were assigned kind-of-business classifications in accordance with the provisions of the 1972 SIC Manual. However, because in some instances a more detailed classification is required for census purposes than is defined in the SIC Manual, additional kinds of business have been identified within SIC categories.

The kinds of business covered are as follows:

SIC 70 - Hotels, Motels, Parks, Camps
SIC 72 - Personal Services
SIC 73 - Business Services
SIC 75 - Automotive Repair, Services, and Garages
SIC 76 - Miscellaneous Repair Services
SIC 78 - Motion Pictures*
SIC 79 - Amusement and Recreation Services, Except Motion Pictures*
SIC 81 - Legal Services

* Motion pictures and amusement and recreation services are combined in these tables.

Receipts - Receipts include the total receipts from customers for services rendered and merchandise sold during 1972 whether or not payment was received in 1972. Receipts are net after deductions for refunds and allowances for merchandise returned by customers. Receipts also include local and State sales taxes and Federal excise taxes collected by the establishment directly from customers and paid directly by the establishment to a local, State or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes, which are paid by the manufacturer or wholesaler and passed along to the retailer, are also included. Total receipts do not include non-operating income from such sources as investments, rental of real estate, etc.

Receipts in this report do not include service receipts of manufacturers, wholesalers, retail establishments, nor other businesses whose primary activity is other than service. They do, however, include receipts other than from services rendered (e.g., sales of merchandise to individuals or other businesses) by establishments primarily engaged in performing services covered by this census.

Although the count of establishments in this report represents the number in business at the end of the year, the receipts figures include receipts of all establishments in business at any time during the year.

DIRECT GOVERNMENT EXPENDITURES

According to the 1977 Census of Governments, expenditures are all amounts of money paid out by a government - net of recoveries and other correcting transactions - other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Expenditures include only external transactions of a government and exclude noncash transactions such as the provisions of perquisites or other payments in kind. Aggregates for groups of governments exclude intergovernmental transactions among the governments involved.

General expenditures are all expenditures of a government other than utility expenditures, liquor store expenditures and insurance - trust expenditures.

Direct expenditures are payments to employees, suppliers, contractors, beneficiaries, and other final recipients of government payments except intergovernmental expenditures.
